

Company Profile

Raqi Wa Emar Co.

A specialized company in executing and managing construction, infrastructure, and integrated systems projects, in accordance with the highest engineering and technical standards.

Welcome To Raqi Wa Emar

Your partner towards a more
stable and high-quality future.

Saleh Bin Thabit

Founder & Chairma

When we founded Ruqi & Emar, we did not just establish a company – we laid down a principle.

A principle that sees quality as a commitment, not an option; where values come before volume, and trust before profit.

We began with ambition and grew with dedication.

Today, our team embodies professionalism, vision, and passion – delivering excellence that speaks louder than words.

We extend our gratitude to everyone who has been part of this journey.

Thank you to those who placed their trust in us, and welcome to those who joined us on a path driven by intention, refined by experience, and inspired by passion.

Who is Raqi Wa Emar

Raqi Wa Emar is not just a construction company it's a vision brought to life. We execute projects ranging from infrastructure to fully integrated developments, driven by engineering commitment and a passion for excellence.

We don't just build, we create lasting value, staying true to our mission of delivering real meaning and impact in **every project** we undertake.

Why ? Raqi Wa Emar

Because we don't just execute, we think, plan, and create impact through standards that reflect our commitment, precision, and distinction.

Every project is treated as a mirror of our name, and every result stands as a testament to quality and endurance.

In every endeavor, we prove that mastery is never an option, it's a principle.

Raqi Wa Emar transforms your vision into a crafted reality, one that reflects trust, embodies vision, and leaves a lasting impact.

Vision & Mission

Out Vision to be the trusted partner in delivering integrated construction solutions that elevate design, inspire confidence, and stand the test of time.

Out Mission to build with vision, precision, and commitment — blending creativity and expertise to exceed expectations and forge lasting relationships built on trust and quality.

Our Services

What we are provide

Construction Works

Comprehensive solutions for all infrastructure works.

Execution of water and sewage networks, manholes, and site grading with high engineering standards.

Foundations, columns & slabs

Concrete & steel structures

Residential, commercial & industrial buildings

Infrastructure & Site Works

Infrastructure & Site Works

Execution of asphalt, concrete, and interlock works for durable, high-quality surfaces.

Water & sewage networks
installation

Manholes and culverts
construction

Backfilling, grading, and
sub/base course works

Roads & Pathways Works

Roads & Pathways Works

Design and installation of full fire systems ensuring safety and compliance.

Asphalt and concrete
road works

Interlock, curbstone, and
paving works

Pedestrian walkways
and parking areas

Firefighting & Safety Systems

Firefighting & Safety Systems

Execution of electrical, HVAC, and control systems with precision and reliability.

Automatic sprinklers, fire alarms & hose reels

FM200 & CO2 gas systems

Wet / Dry / Foam fire networks

Supply & installation of certified fire pumps

Electrical & Mechanical Works (MEP)

Electrical & Mechanical Works (MEP)

Providing design and coordination services for architectural and structural projects.

Alarm, lighting & emergency systems

HVAC systems

Distribution & control panels

Internal and external electrical networks

Design & Consultancy

Professional design and engineering consultancy services.

Providing architectural, structural, and interior design services, with full coordination and technical support to achieve efficient and creative solutions.

Preparation of shop
drawings & coordination

Interior and exterior building
design

Architectural & structural plan
development

Restoration & Rehabilitation

Restoration & Rehabilitation

Renovation and strengthening of existing structures through insulation, reinforcement, and treatment techniques that restore integrity and aesthetics.

Waterproofing, reinforcement & structural repair

Cracks and settlement restoration

Renovation of old and heritage buildings

Maintenance & Operation

Maintenance & Operation

Providing preventive and corrective maintenance to ensure safe, efficient, and continuous operation of buildings and systems.

Routine maintenance for buildings and MEP systems

Facility operation after handover

Emergency repairs and preventive plans

Supply of Materials & Equipment

Complete site preparation solutions.

Supplying high-quality materials and certified equipment to meet project needs from construction to operation.

Fire & electrical system materials

Site equipment (generators, pumps, tanks)

Construction materials of all types

Temporary Facilities & Site Works

Temporary Facilities & Site Works

Design and setup of temporary site facilities providing full utilities and services to ensure a functional and efficient work environment.

Complete site setup (power, water, AC, lighting)

Supply & installation of tents, shades, mobile toilets

Workers' camps and temporary site facilities

Landscaping & Site Works

Landscaping & Site Works

Design and implementation of landscape and external works including irrigation, lighting, and greenery to create a harmonious outdoor environment.

Outdoor finishing and lighting

Modern irrigation
systems

Green areas and
landscape design

Steel & Shade Structures Works

Steel & Shade Structures Works

Manufacture and installation of steel and shading structures with precision and durability to combine functionality with aesthetics.

Fabrication and
installation of steel

Lightweight steel
structures

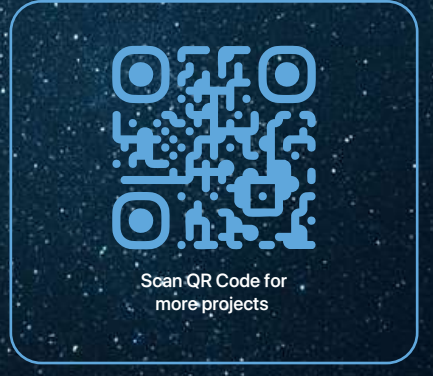

Custom metal shading
solutions
